Here for your business

As a family-run fuel supplier with a network of regional depots, we make it our business to keep yours running smoothly. Which is why we provide a flexible, efficient and reliable service others can't match, backed by competitive prices.

50m+
litres supplied per year

85+
years in business

15,000+
happy customers

Experts who care

Whatever your LPG needs, we're here for you. Our specialist knowledge stretches across different sectors to ensure you're getting the most from your fuel while meeting your green credentials.

We also fit a telemetry system to your tank as standard that monitors gas levels and automatically tells us when a top up is needed so you need never worry about running low.

- We've the scale and flexibility to supply businesses large and small.
- We only employ local people who care about a job well done.
- Our drivers deliver regular routes so they get to know you and your business.
- Our customer care team are experts not staff in a huge call centre.

Customer service without equal

We've built our company on providing a level of service others can't equal. Rest assured, you'll receive a seamless customer service from site survey to installation. Followed by ongoing aftercare to make sure we don't just keep meeting your expectations, but surpassing them.

And when the going gets tough, like in the depths of winter, we come into our own to keep your business running no matter what the weather. Even our directors and managers, including our MD and Chairman, have HGV licences and will jump in a wagon to deliver if needed.

Automatic
refuelling

Consistent supply – always

Just as your business never stops, neither do we. You'll be provided with a state-of-the-art telemetry system that monitors your tank's LPG level in real time and automatically tells us when you need a top up.

This means you need never worry about running low on fuel or checking you've placed an order. Instead, you've peace of mind that your fuel supply is in safe, reliable hands. Leaving you free to get on with the important job of running your business.

Health & Safety & you

To keep your business operating safely, we provide:

- Important safety checks of your tank and system.
- All work is carried out by fully-qualified GAS SAFE engineers.
- Help ensuring fuel is stored correctly.
- Advice on meeting all necessary rules and regulations.

Our Chairman is on the board of directors for Liquid Gas UK, the trade association for the LPG industry in the UK. This is dedicated to the safe and effective development of LPG, focusing on LPG's role in providing low carbon heat and energy, as well as helping to improve air quality.

Our commitment is your peace of mind

When your business runs on fuel, you need a supplier you can trust and rely on at all times. Having worked with local businesses since 1932, we understand how important our role is which is why we put you first.

Our decades of experience means we also have a wealth of experience, knowledge and understanding of the needs of individual companies that goes above and beyond the competition.

As part of our commitment to you, we also include regular tank inspections and perform maintenance so your equipment stays in tip-top condition. After all, prevention is better than cure. Of course, if the unexpected does happen, we provide a 24-hour emergency engineer call-out service to get your business back to normal in no time.

Switching is simple

We'll take care of everything. Before you know it you'll be enjoying a reduction on your energy bills, 5-star maintenance and the best in customer support.

Call us for a quote and to make an appointment

See what great value we offer and arrange a no-obligation on-site visit.

Receive a free site survey

One of our area managers will visit to advise which tanks are right for your needs and where best to place them. Or, if you have an existing supplier, we'll make all the relevant arrangements to exchange your existing tank/tanks.

Get a new LPG tank

We'll expertly remove your old LPG tank, then quickly and efficiently replace it with one of our new commercial tanks. All with the very minimum disruption to your supply – it normally takes just 3 to 4 hours.

Finding the right LPG tank solution for you

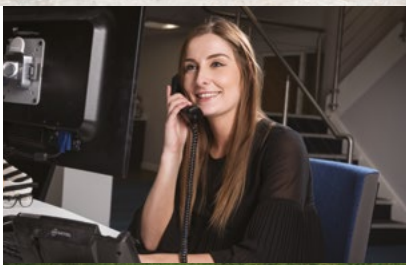

As one size doesn't fit all, we'll make sure you get the right tank for your storage needs and that it meets all industry safety requirements.

Above ground tanks

We offer a comprehensive range and can advise on the right one for your needs as well as the best location for it.

Below ground tanks

Don't have space for a tank or think it will ruin the look of your business? We'll find a safe and convenient location, then install it underground for you. Followed by a continuous supply of fuel thanks to our auto fill service.

Our History

1930s
Ralph Robinson sees a farmer with milk churns who's just missed his train. He asks the farmer if he can take his milk to the dairy for him. So begins Ralph's milk business. Shortly after, he buys his first flat-bed wagon.

1950s
Son-in-law John Illingworth joins the business and we move to supplying agricultural oil to rural businesses.

1970s
Howard Illingworth (our Chairman) joins the business as does John's eldest son David.

1980s
The company begins delivering LPG and as business grows supplying more industry sectors, we build an LPG plant in the Bedale area.

1990s
RPD Fuels and Lubricants changes its name to Northern Energy Supplies (NES) and becomes an independent reseller allowing us to concentrate more on local businesses.

2000s
We continue growing as more and more businesses choose us for their oil and LPG.

2010s
Howard's sons, James, Ted and Stuart all join the business. Northern Energy expands its LPG offering to businesses further into Scotland as well as into the North West and south into East Anglia and the Midlands.
